

## Firmwareupdate for AIO GATEWAY V5 via ConfigTool NEO

If you use your AIO GATEWAY V5 in combination with AIO CREATOR NEO please use the ConfigTool NEO to update the firmware of your gateway.

Launch the ConfigTool NEO and select your AIO GATEWAY on the start screen by clicking it.

Now select the category "General", where the current version of the firmware will be displayed. If a new firmware is available, this will be indicated by a message.
