mediola compactIP (RJ12)

LAN Ethernet (RJ45)

 Made in Germany

Matter Bridge MMB-001-Serie

GENERAL SPECIFICATIONS

Description Item Number	mediola Matter Bridge MMB-001-Serie
Dimensions	W/H/D: 90 x 23 x 90
Material (Housing) Color	Polycarbonate Black – or OEM variant
Branding	White Label or OEM
Supplier	Mediola – oder OEM with Own Certification by Similarity

TECHNICAL SPECIFICATIONS

Power Supply Plug Type	5V DC, 1,5 A USB-C
Power Consumption	1,3 W (Normal Operation)
Main-Processor	2 Xtensa LX6 / 240 MHz - 520kB internal RAM + 8MB external RAM + 16MB Flash
Co-Processor	Arm Cortex -M4 RISC / 96 MHz - 256kB RAM + 1MB Flash
Wi-Fi LAN	IEEE 802.11 b/g/n 2,4 GHz 10/100 Base-T Ethernet, IEEE802.3 ff. (Variant LC oder OEM-Option)
RF-Transceiver	Depending on hardware variant 433 / 868 MHz
RF Transmission Range	> 100m Free Field
Bus Interface	Usable in OEM variants for wired solutions and as a Building Bus (Variant LC or OEM Option)
RGB/LED Indicator (Top Cover)	Displays Device Status – Customizable as OEM Variant

HARDWARE VARIANTS

MMB-001-4	CSA23L70MAT42670-24	RF1: 433 MHz
MMB-001-8	CSA23L71MAT42671-24	RF1: 868 MHz
MMB-001-48	CSA23L69MAT42669-24	RF1: 433 MHz + RF2: 868 MHz
MMB-001-88	CSA240E7MAT42906-24	RF1: 868 MHz + RF2: 868 MHz, EnOcean
MMB-001-48LC	CSA23889MAT41402-24	RF1: 433 MHz + RF2: 868 MHz + LAN

Mediola connect App and Cloud

APP / CLOUD

Setup, configuration, usage, commissioning	mediola connect App for iOS and Android (included, free)	mediola OEM-App for iOS and Android (optional according to style guide)
Cloud-Service (Optional)	—	Remote access via OEM-Cloud
API		enables integration into the OEM's own (existing) app
